Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 04 December 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-3, 12-15, 24, 26, 40-41 are rejected under 35 U.S.C. 103(a) as being unpatentable over Richard for substantially the same reasons stated in the last Office Action.
3. Claims 4-11, 16, 25, 42-47 are rejected under 35 U.S.C. 103(a) as being unpatentable over Richard as applied to claim 1 above, and further in view of Barfield for substantially the same reasons stated in the last Office Action.
4. Claims 22-24, 37-39 are rejected under 35 U.S.C. 103(a) as being unpatentable over Massie for substantially the same reasons stated in the last Office Action.
5. Claims 17-22, 27-36 are rejected under 35 U.S.C. 103(a) as being unpatentable over Rodgers for substantially the same reasons stated in the last Office Action.

Response to Arguments

6. Applicant's arguments filed Dec 4, 2003 have been fully considered but they are not persuasive. Applicant argues that claims 24 and 26 are rejected by both Richard and Massie in separate rejections. This is permitted. The examiner regrets that two paragraphs numbered 6 appeared in the last Office Action. However, this does not change the rejections at issue. It should be further pointed out that all the claims do not

Art Unit: 3643

need to be expressly treated in the body of the rejection. However, it should be pointed out that all the claims are rejected on art in the headings of the rejections. In response to applicant's argument that there is no suggestion to combine the references, the examiner recognizes that obviousness can only be established by combining or modifying the teachings of the prior art to produce the claimed invention where there is some teaching, suggestion, or motivation to do so found either in the references themselves or in the knowledge generally available to one of ordinary skill in the art. See *In re Fine*, 837 F.2d 1071, 5 USPQ2d 1596 (Fed. Cir. 1988) and *In re Jones*, 958 F.2d 347, 21 USPQ2d 1941 (Fed. Cir. 1992). In this case, the knowledge is generally available to one of ordinary skill in the art. In regard to claim 1, applicant has misinterpreted the rejection. The examiner merely finds it obvious for the hook to break on the shank rather than in the bend. See Line 9 of the paragraph 4. the modification of the Richard patent does not cause the patent to become unsatisfactory for its intended use or change the principle of operation of the Richard patent. The modification merely changes where the hook breaks. In reference to claims 17 and 22, rejected by both Rodger and Massie, applicant asserts that the modification is unobvious and that principle of operation is changed, but provides no evidence as to how the principle of operation is changed and why the modification is unobvious. The principle of operation is the same.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
